**PATENT**

### **REMARKS**

On January 27, 2006, after payment of the Issue Fee, the undersigned received a voice message from the Examiner regarding a figure within the specification that did not comply with 37 CFR 1.81, however, no written communication was received from the Office of Patent Publications. The undersigned discussed the problem with the Examiner on February 6, 2006 and again on March 7, 2006. During the discussion the Examiner agreed to send an Interview Summary requesting Applicant provide a substitute drawing and amendment to the Specification to permit publication.

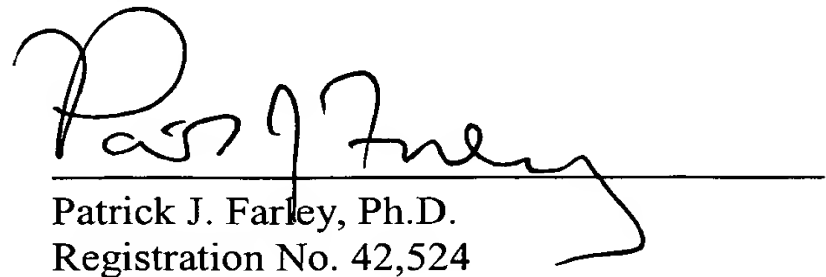

Regarding the amendments made herein, the text incorporated into the description of Figure 1 was part of the drawing that originally appeared in the specification on page 5. Thus, no new matter is added.

Please accept the proposed amendment to Figure 1, deleting the text moved to the "Brief Description of the Drawings," and providing the drawing on a separate sheet.

Applicants respectfully request prompt publication of the issued patent.

Date: March 22, 2006

Respectfully submitted,

  
Patrick J. Farley, Ph.D.
